

# MXC-FGX-TK1 CARRIER

## DEVELOPMENT BOARD

# MXC CARRIER BOARD WITH MULTIPLE INPUT AND OUTPUT CONNECTORS

### KEY FEATURES

- Fully compatible with MXC-FGX-TK1
- 500-pin connector for the MXC module
- Power connector on the carrier board
- Video input and output connectors
- Additional data ports

### OVERVIEW

WOLF makes a stand-alone MXC-FGX-TK1 carrier board for use as a development tool.

The MXC module is seated on the carrier board. The carrier board provides connectors for SDI inputs and outputs, as well as other data ports.
