

VPX3U-RTM FOR VPU

RTM BOARD WITH MULTIPLE INPUT AND OUTPUT CONNECTORS

KEY FEATURES

- Fully compatible with WOLF's VPU boards
- Power connector to carrier board
- SDI inputs and outputs
- DP++ outputs
- Analog inputs and outputs

OVERVIEW

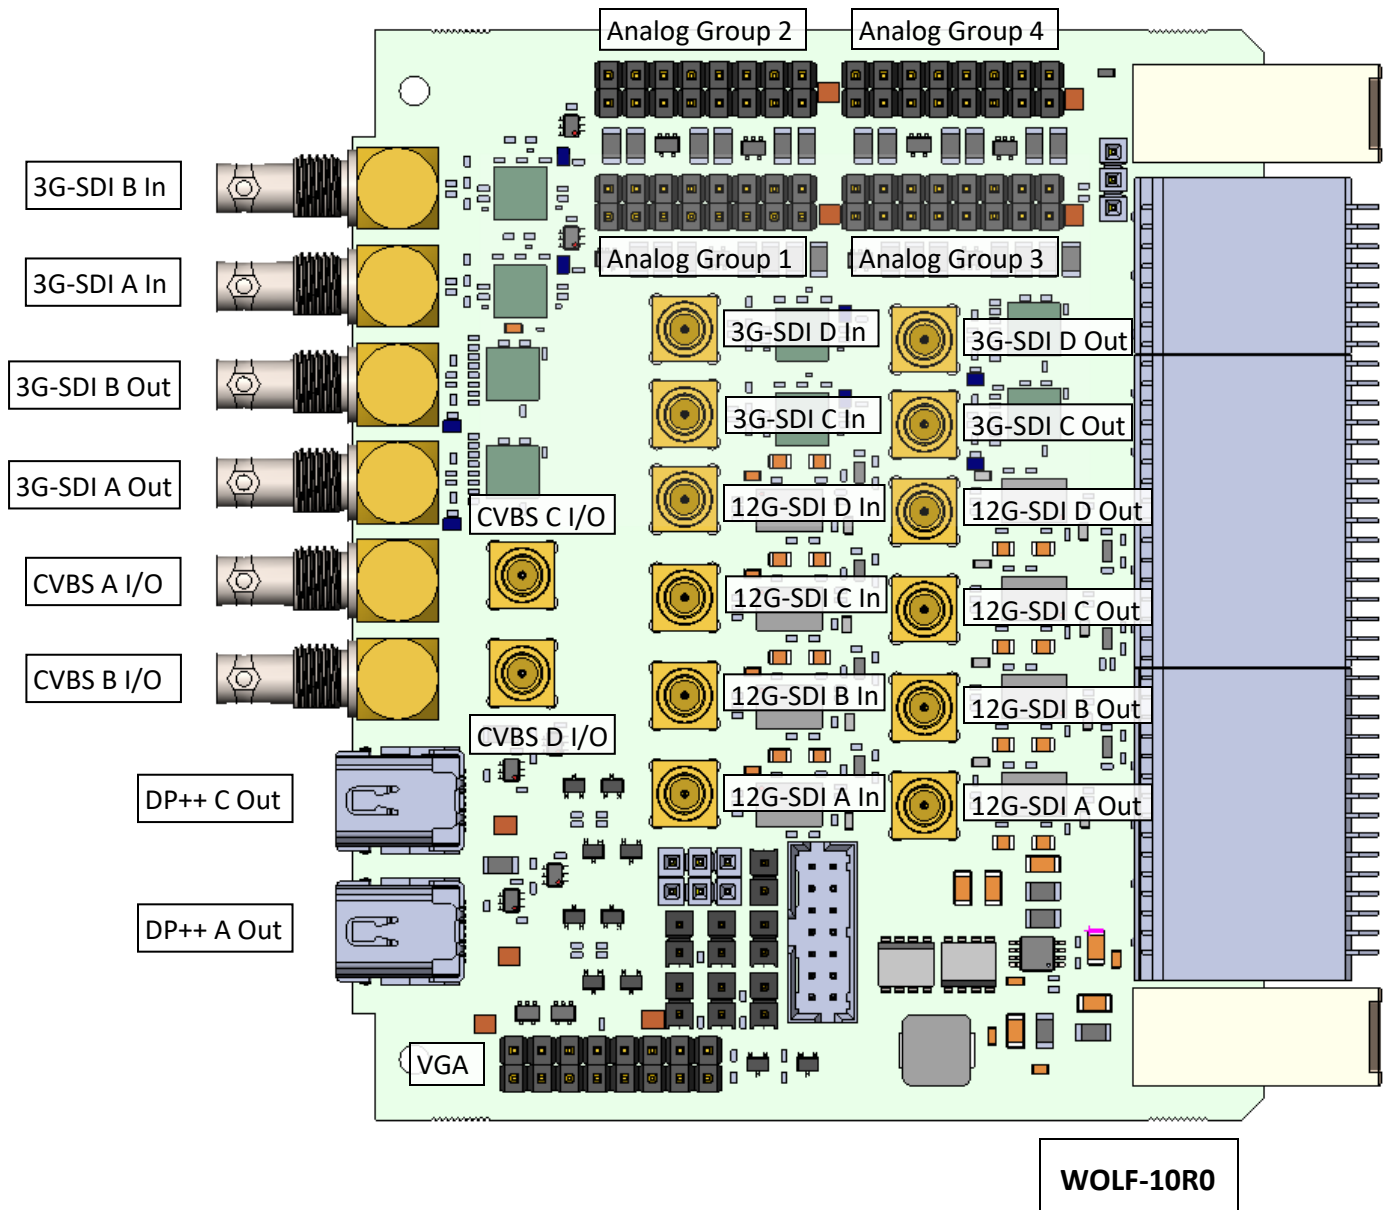

This 3U VPX rear transition module (RTM) is compatible with WOLF's VPU boards, the WOLF-1110 and WOLF-1010.

The board provides interfaces for SDI inputs and outputs, with 8 SDI connectors that can transmit up to 3G-SDI and 8 SDI connectors that can transmit up to 12G-SDI. Two DisplayPort++ connectors are available which can transmit HDMI and DVI outputs. Analog interfaces include CVBS, VGA, and 4 configurable analog interfaces.
